## Code of conduct for FACA members

Coaches have a significant influence on how people chose to behave in football.

As a coach you are a role model and players will be influenced by how you behave. Therefore it is important that you are aware of just how you are behaving – on the training ground and at matches. You also have a part to play in terms of what behaviour you will tolerate from your players on and off the pitch.

It's natural that winning games is a focus for coaches, but coaches need to avoid an attitude that creates a 'win at all costs' environment and doesn't allow you to focus on a person's or team's development or enjoyment of football, in particular within youth football.

Its important that Coaches develop an environment where learning can take place, where players can try and develop skills, technique and game craft and recognise that making mistakes is part of learning.

Coaches working with children need to be especially aware of their own behaviour and the impact this can have. The safety, welfare, enjoyment and development of a child must be the first priorities for the coach of a youth team, before the achievement and reputation of the club, school, coach or parent.

Members of FACA are required to abide by the Grassroots Football Coaches' Code of Conduct.

I agree to;

- Respect the rights, dignity and worth of each and every person and to treat them equally
- Place the well being and safety of each player above all other considerations, including the development of performance
- Respect and adhere to the guidelines laid down by FACA and the Rules & Laws of the Football Association
- Promote fair play, and never condone violations of the Laws of the Game or behaviour contrary to the spirit of the Laws of the Game
- Act as a positive role model displaying high standards of behaviour
- Refrain from and not tolerate the use of inappropriate language or behaviour
- At the outset clarify with the player (and where appropriate with their parents) exactly what is expected of them and what they can expect from me as their coach
- Develop appropriate relationships with each player based on mutual trust and respect
- Encourage and guide each player to accept responsibility for their own behaviour and performance

- Ensure all activities I organise or promote for my players are appropriate for their level of ability, age and maturity
- Cooperate fully with other specialists (e.g. officials, doctors, physiotherapists) in the best interests of the player

I accept that the club or league may take action if I do not adhere to my code of conduct as a grassroots football coach and in particular if I:

- Mistreat, bully, intimidate or knowingly continually undermine a player;
- Use inappropriate coaching/training methods for age groups I am working with;
- Repeatedly criticise or abuse the referee in any one game or series of games;
- Enter the field of play, with out the referees permission
- Swear at or abuse a player, referee, spectator or club official.

Possible club or league action:

- To be mentored by another club coach;
- Report card to be completed by referee at end of each game
- To attend an FA coaching qualification;
- To work with a different age group;
- To serve a suspension from coaching;
- To attend an FA workshop (e.g. Laws of the Game, Safeguarding Children)
- To leave the club
